YOU CAN FIND ALL THAT ON THE LAND

The company was created in order to produce and supply our customers, throughout the year, with fresh fruits and vegetables of excellent quality, safe healthy, and also sustainable at very competitive prices. Responding to our desire for innovation and our respect for the environment, we are committed to investing in the introduction of new technologies which facilitate the placing on the market of products of the highest quality, with rigorously supervised packaging, and supplied on time to meet the requirements of our customers

1.Services.

Supplies scheduled "Throughout the Year" Our main goal is to exceed the expectations and needs of our customers; an aspect of which we take very much care. For this and together with the backing of our farming partner, we supply products of quality and safety to the main chains of supermarkets and processors in the world.

2. Logistics.

We have vast experience in temperature-controlled logistics and offer a complete solution for the logistics and distribution of all products. Our fleet of high-quality vehicles, and expansion within the market, allow us to meet the logistic needs of our customers, with punctuality and efficiency and always at competitive prices.

3. Quality.

One of our hallmarks of identity and commitment is the rigorous control of the quality of all our products, which is carried out in accordance with the requirements and mandatory regulations, subsequently, our exhaustive controls allow us to offer maximum guarantees. We have for this purpose our own laboratory which ensures compliance with the rules of commercialization, including the analytical controls to which we subject all our products, highlighting physicochemical, Organoleptic, and microbiological controls, nutritional studies, and control labels.

4. Our Products.

To supply our customers, we have our own production and also that of collaborators, the combination of which gives us more flexibility. We and collaborators share the same passion for producing crops with special care and respect for the environment and, in addition, guaranteeing us the programming and constant supply.

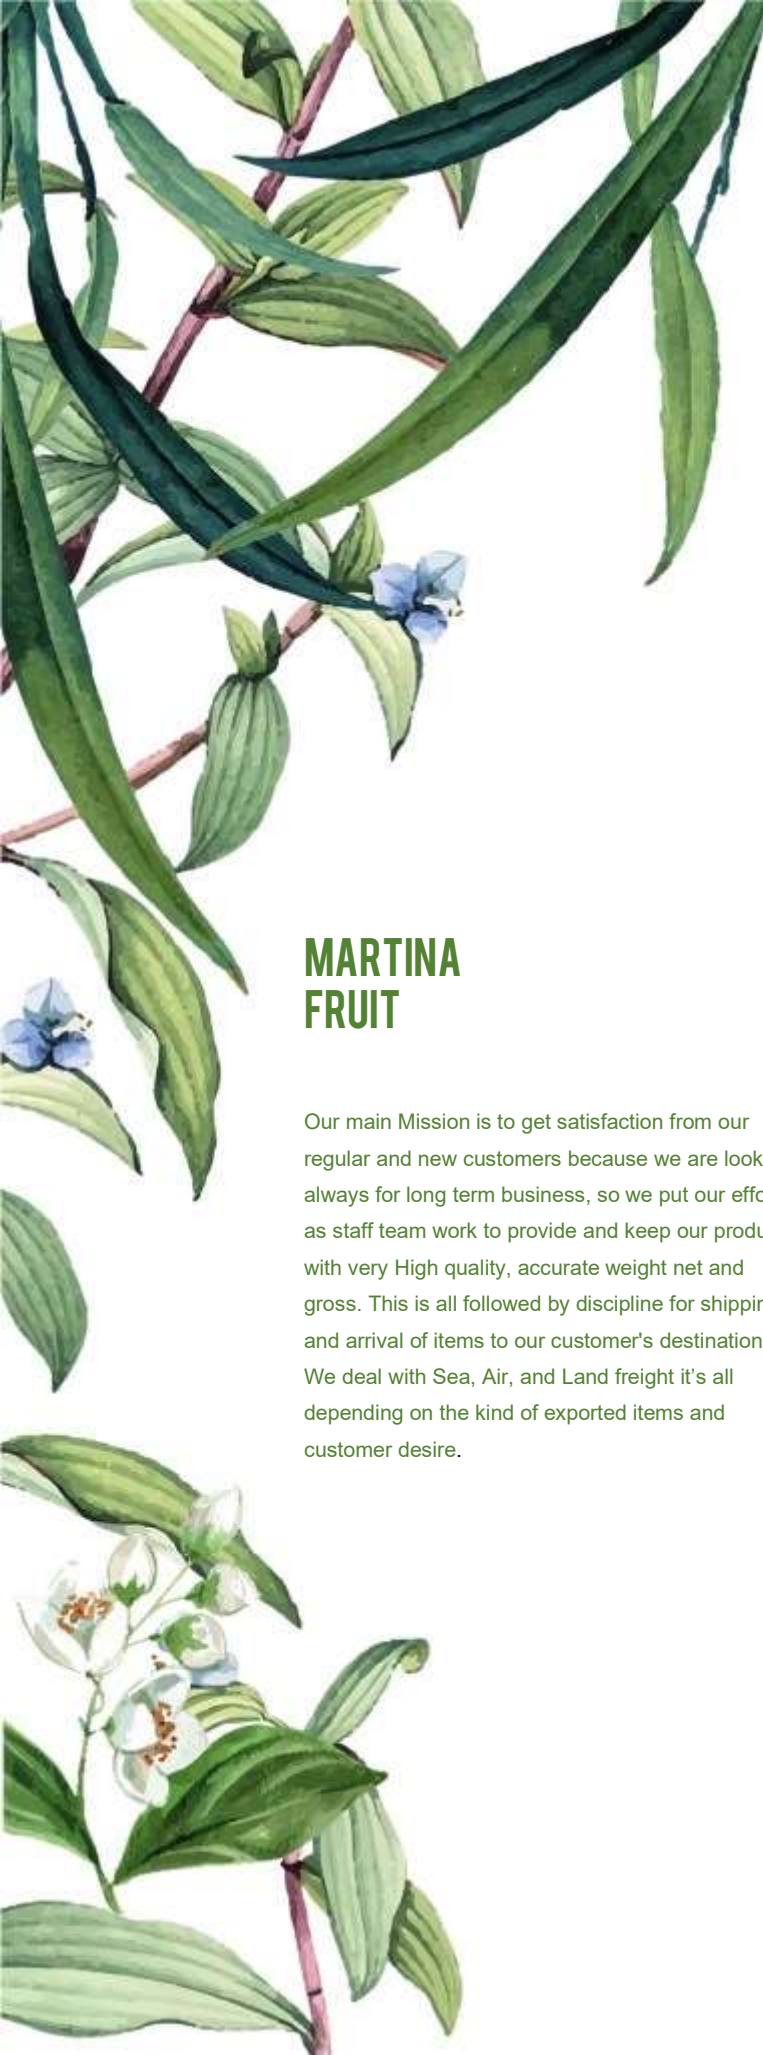

Martina is a leading company producing, packing, and exporting. Our products like Citrus Fruits, Grapes, Pomegranates, Mango, Watermelon, and all seasonal fruits as well as Vegetables like Iceberg Lettuce, Broccoli, Tomatoes, Potatoes, Cucumber, zucchini, and other all vegetables, besides Dates. Also herbs like dills, coriander, thyme, and so on, we have our packing house for preparing our products to be ready for Exporting.
